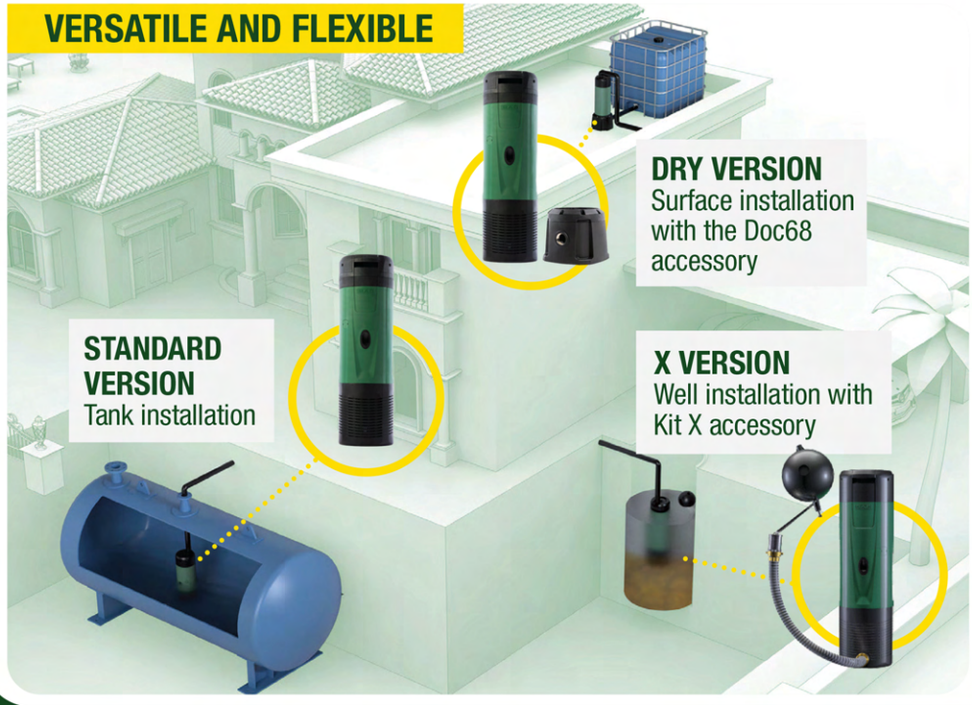
DTRON SUBMERSIBLE PUMPS

7" SUBMERSIBLE ELECTRONIC MULTI-IMPELLER PUMPS FOR CLEAN WATER IN WELLS AND TANKS

DTron 2 and **DTron 3** are 7" submersible electronic multi-impeller pumps for clean water designed for use in wells and tanks. Use them submerged, partially submerged or on the surface (with appropriate DOC68 accessory). Suitable for use in domestic and residential environments for pressurization, rainwater reuse, gardening and irrigation. The pumps can be installed vertically or horizontally.

VERSATILE AND FLEXIBLE



EASY TO INSTALL

Integrated vessel for quick and simple installation

Modular components can be removed and replaced, enabling easier maintenance

SAVE UP TO 50% IN TIME
installing vs. a traditional pump system

NFC AND PLC TECHNOLOGIES

NFC (Near Field Communication) permits use of pumps with float switch and water level measurement* without the need for additional wiring. Protects against water leaks.

The accessories can be attached and do not require removal of the pump body. Assures speed and reliability.

PLC* (Power Line Communication) permits use of the **Com Box** electronic control device - not through any physical connection - but via the power input line.

*DTRON 3 only

DCONNECT BOX 2

INTELLIGENT PERFORMANCE - DCONNECT BOX 2 OFFERS REMOTE CONTROL FROM YOUR SMART DEVICE

The DCONNECT Box 2 (only for DTron 3) provides access to the DAB H2D cloud service, giving you remote access to monitor and manage the pump anytime, from anywhere. View system status, adjust settings, and respond to issues faster—all from your phone or desktop.
(customer's permission required)

COM BOX

DTRON 3: THE FIRST SUBMERSIBLE PUMP WITH A DISPLAY

Com Box - More convenient. Smarter.

The Com Box allows changing the starting and stopping pressure and to check any alarms triggered by the pump, in an intuitive manner (standard for DTRON 3). No direct connections with the pump (PLC) are required.
